UX + CODE = UNICORN?

i am not a unicorn. i just have a curisoity for the unknown.

*People matter.
Feelings matter.
Value matters.*

I love the UX Community

I have learned so much and never felt so much passion before.

I'm ready to give back

This world is in great need of humanity, and besides us, technology is the best way to deliver.

Victoria's Peak, Hong Kong

This world needs more people with the ability to think of two opposing ideas and create a solution that takes into account both ideas. We can no longer take the first thing that comes to mind nor we can only consider the soltuion given by our professional field. We need to grow, expand. reach outside of the comfort zone of our "field" and trust in our ability to figure things out.
